Frequently Asked Questions

How are scholarships set up?

Sauk Prairie Dollars for Scholars uses a form that donors fill out specifying the criteria they would like to use to award their scholarship (minimum \$1,000 to include criteria). If no criteria is specified, the scholarship is general in nature and awarded to students based on their total application points received.

What if I change my major after graduation?

Realizing that students may change majors, we award scholarships based on the student's intent at the time of their application. Once a scholarship is awarded, a student's decision to change majors will not impact distribution of award(s).

The Cramer scholarship is specific that the student MUST ATTEND UW-Platteville. If the recipient of the Cramer Scholarship transfers out of UW-Platteville they will not be able to claim that scholarship.

How are scholarships awarded?

After students apply online, a committee of board members and non-board members review specific parts of the applications – essays, GPA, class rank, work, volunteer and extracurricular activities, and special circumstances. All applications are anonymous. Scores are determined for each section of the application and a total is generated. Applicants are ranked in order of their score. A different committee reviews the applicants with their scores and funds available to determine a match.

Why does it seem like some students get a lot of scholarships and others get few or one?

Depending upon scholarship criteria and funds available, it is possible for some students to receive more scholarships than others. However, multiple scholarships may not add up as quickly as one scholarship. For example, one student may receive a scholarship for \$2,000 while another receives three scholarships at \$500 each.

What if a student takes a year off after high school or enters the military?

Students have up to four years following graduation to claim their scholarship funds. Please see procedure on how to request scholarship funds on page 2.

Do I need to claim all my scholarship funds at once?

No. Students can claim partial distribution of their scholarships.

What happens to unclaimed scholarship money?

Any scholarship funds unclaimed after four years are transferred into the SP Dollars for Scholars Endowment Fund and used for future awards.

THE TERESA KREUTZMANN SCIENCE AWARD

2 @ \$500

Memorials and Trusts

AARON J. FROSCHE MEMORIAL

Aaron was a very caring person who made everyone feel special and important. This scholarship is provided through the generosity of his many friends and family. Recipient should be someone pursuing a career in art (commercial art, graphic arts) through a technical school or college.

ALEX KOHLMAN GULLICKSON MEMORIAL

\$300

Alex Kohlman Gullickson was a 2008 graduate of Sauk Prairie High School. He was pursuing a two-year degree at Madison Area Technical College with plans to transfer into the UW system. Alex was an outgoing, warm and friendly person who was loved by his family and many friends and classmates. Alex enjoyed art and his music, video games, movies, four-wheeling and hanging with friends. He had been a soccer player and snow boarded but he was most passionate about his skateboarding. He taught social studies for over 30 years at Lake Geneva Junior High School. As a testimonial of the excellent education he received at UW Platteville, he bequeathed \$48,000 to both Lake Geneva Badger and Sauk Prairie High Schools with the income to provide scholarships for students attending UW-Platteville.

BILL AND RYAN KNICKMEYER MEMORIAL

\$1,000

This scholarship is given in memory of a father and son who both died too young, from cancer. **Bill Knickmeyer** was a family dentist for 38 years in the Sauk Prairie area (1978-2015). Bill enjoyed sports – both as a player and spectator. He was an avid Badger and Packer fan. Bill enjoyed dentistry, mainly because of the families he met. He loved traveling, meeting people from other countries, reading and continually learning new things. Bill believed in post high school education, graduating from Oregon High School, attending UW-Madison for his undergrad studies, and graduating from Marquette Dental School in 1978. He supported Dollars for Scholars because it encourages higher education.

Ryan Knickmeyer attended Sauk Prairie schools from kindergarten until he graduated in 1997. He felt Sauk Prairie High School and his AP courses prepared him well for college. Attending UW-Madison, Ryan graduated in 2002 with double majors in English and History. After taking a year off, he went back to the UW to pursue a journalism degree. He was assistant sports editor for The Badger Herald at the time of his death. Ryan also was an avid sports enthusiast – playing football, basketball, baseball and soccer that went to State in 1996 and 1997; and he also had the privilege of being a part of the 1996 Sauk Prairie State Baseball championship team. In 2005 Ryan had the opportunity to be the Sauk Prairie assistant JV baseball coach. He loved watching the Badgers and Packers, and the Cubs (but we forgave him for that). Of all sports, Ryan loved baseball most of all.

Bill and Ryan believe in our Sauk Prairie Schools and in higher education. They lived their motto: “Never stop learning.”

BOB WOLLERSHEIM MEMORIAL

He passed away only four months later, on April 15, 2009. Family, God and sports were three important parts of Dave’s life. Baseball was his favorite sport—to play it when he was younger and then to coach his son Steve’s baseball teams for many years. Davi was a swimmer for many years on the summer swim team and was on the high school swim team. Davi was so proud and his parents are so proud of the fact that he medaled at state in the backstroke his senior year in high school and set a new high school record. When Davi graduated from high school, he received scholarships. While he was a student at UW-Platteville he mentioned he would like to give back some day to other graduating senior swimmers. She was a registered nurse, daughter, wife, mother of 3 kids, sister and friend. She touched countless lives with her positive spirit. Her specialty as a nurse was in the Neuro ICU and the Emergency Room. In her work she was highly-respected and it was common knowledge that all the doctors and nurses wanted to work with her. One example of her 'giving' spirit was volunteering in 1991 to travel to India with others in the medical field through the Virginia Children's Connection to perform surgeries on children born with cleft lips and palates. Minnie was a mentor and example to many, and if you knew Minnie you often heard her say, "Life is for living," and "Strive to be your best." We sincerely hope this scholarship will help another person do both of those things.

PAUL REUBEN SCHNELLER MEMORIAL

\$1,000

Paul Reuben Schneller was born and raised in Sauk Prairie. He Graduated from Sauk Prairie High School in 2008. Paul enjoyed playing Lacrosse with his brother Matt, listening to music (turned up to a thumper level), and giving a friend a safe ride home. Paul lived his life by his favorite word "Giggity," which seemed to mean extreme contentment. Paul started working at a young age, which gave him the work ethic to complete his education goals. Paul loved to talk with people and was there to help whoever needed it. After graduating in December 2015 from the University of Wisconsin Platteville, Paul moved to Tampa Florida to live with his brother, and start his career. Paul had just started his new fulltime position of helping people enjoy their time in Tampa when he passed away at the young age of 26. In his life, Paul "Lived Loud", always laughing and focusing on the good side of life.

This scholarship recognizes a student pursuing a higher education and someone that is caring, compassionate and gives back to the community, just as Paul did. Our ideal candidate would be attending UW Platteville where Paul and his father Ron studied Business and Agriculture respectively or UW Oshkosh where Matt studied Pharmacy. Paul loved every day of his life, danced with a freedom that most others envy, and accepted all people for who they are.

There will never be another Paul, PA or Schnelf. But in his memory we can all be a bit more caring, compassionate, and we should always LIVE LOUD. Pauls' favorite color was orange, a unique and happy color. Look for orange in your life and remember to add a little Giggity!

ROELKE BROTHERS

Michael was a 15-year-old when he was diagnosed with cancer and spent the remaining 18 months of his life trying to lead a normal life between the chemotherapy treatments and multiple surgeries. He participated in marching band and also enjoyed playing Magic—the Gathering. A week before his death, Mike had the opportunity to play the creator of the game and actually beat him 2 out of 3 games. Michael was to have graduated in 2005. He did not have enough time to take all the classes he wanted.

Andy graduated from SPSHS in 2003 and was attending UW-Milwaukee. He was looking forward to his third year at UW-Milwaukee. Though a little uncertain of the future, he recognized the importance of education. Tragically, Andy was killed in a motorcycle accident the summer before his junior year at UW-Milwaukee.
