Frequently Asked Questions

My profile is at 100%, does that mean I'm done?

Not necessarily! After filling out your profile, you need to **search for scholarships** and then click Apply to formally be considered. You haven't actually submitted your application for a particular scholarship until you hit the Apply button. Go into the My Scholarships section of your profile to see the list of scholarships you have met the requirements for and click Apply to all of them you want to be considered for.

How do I submit my application?

Go into the My Scholarships section of your profile, you will see a list of all the scholarships you have met the requirements for and will see the associated Apply buttons. If you do not see any scholarships listed here, you are not currently meeting the eligibility requirements of any open scholarships. Be sure to check through your profile to confirm the information is correct and reach out to your local chapter to confirm their eligibility requirements.

How can I change my answers to an eligibility question?

Click the Support button on the bottom left of the screen to submit a help ticket to us and specify which question you answered incorrectly and we can reset it for you.

How does scoring work?

All applications are scored anonymously. An evaluation committee member (board member without a senior, teacher, or community volunteer) scores one section for each application without viewing the student's personal information. The computer calculates one final score per applicant. The awards committee uses these scores to award scholarships.
