

**THE HELAINE R. HAZLETT SCHOLARSHIP**  
**Helaine R. Hazlett**

Helaine R. Hazlett described her immersion in volunteer work as an evolutionary process. She found her passion in works that made a difference; works that improved the lives of others and the institutions that served others. Her community involvement gave her a unique perspective on the varying needs of different segments of the local population and she took action, founding groups, joining boards, running for elective office and offering her skills where they were needed. This scholarship was established to acknowledge Helaine's tireless efforts, while also recognizing the financial needs and academic accomplishments of Marblehead students.
