Week 4 – Art Adventures Jun 24 – Jun 28

Grab your paintbrush and let's go! We're off on an art adventure around the world to discover the many ways artists express themselves. From land art to expressive painting, this will be a week bursting with creativity.

Week 5 – Creative Collage Jul 8 – Jul 12

When we're not exploring and playing in the garden, we'll learn how to do experimental paper surface techniques like marbling, printmaking, and recycled paper-making! Did you know that there are more insects per square mile than there are people in the world?! Come to Young Naturalists to discover and marvel at the life around you and within you. In three days we'll adventure through eight acres of gardens in a quest to learn all we can about the animals and plants that make up our environment. Inspired by the curiosity and creativity of Naturalists, John Muir, Rachel Carson, Caroline Dormon, and George Washington Carver, we'll also write poetry, make works of visual art, and even design our own gardens!
