

## Dollars for Scholars Spotlight

*It's a tradition.....*

### **FLOODWOOD GRADUATES SUCCEED**

**William Schreder**, son of Jacque and Steve Schreder, graduated from Floodwood High School with the class of 2005. He earned his Associate's Degree in Electrical Construction and Technology from St. Cloud Technical College. He also holds an OSHA 30 certification.

While at Floodwood High School, Will was uncertain about his future goals. One thing he did know is that he wanted to find a job that would offer him sound financial security. The decision to pursue a degree started Will "down the road" to realizing his goal. Will is currently employed by Johnson Controls Inc. and works out of the Plymouth MN Branch Office. He is a Lead Systems Specialist and Senior Service Technician; he manages projects for Johnson Controls throughout the greater Minneapolis and St. Paul area as well as trains other employees on JCI systems. Will is also responsible for providing technical service to a number of large customers. He has been lucky enough to work on some very large projects including TCF Bank Stadium, Target Field and is currently involved with the new US Bank Stadium future home of the Minnesota Vikings.

Will makes his home in Maple Grove, MN with his wife Monica. They have been married for three years and have a beautiful 6-month old baby girl, Eva Marie.

Will's message for the community of Floodwood: Any form of higher education after high school is very important, It will open up many opportunities both personally and professionally. Dollars for Scholars is an excellent program that provides valuable community support for our grads and their college careers. I appreciate everything the Floodwood Community has done for me to meet my education goals, and I hope that this program will continue to aid students in the future.

The people of Floodwood can be proud of their support to young men and women, such as Will Schreder.
