1) Your essays:

- Type your essays in Word or Google Docs and then copy and paste them into your online scholarship applications. Be sure to click Submit when finished.
- Follow all directions, include your word count, answer the prompts accurately and as best you can.

2) Your Profile:

- Be as detailed as you can be when you complete the tabs of your profile.
- Concentrate heavily on thoroughly inputting information into the Activities, Awards and Employment tabs. These tabs count heavily in the evaluation process.

To have the best chance at receiving a scholarship(s), it is imperative that you submit detailed information within your profile tabs, and write grammatically correct and thoughtful essays.

Our process is very competitive. Please take your time, follow directions, and do your best work.

All essays must be submitted on or before midnight, January 31.
